**Eurasian Water Milfoil
EWM Littoral Zone Blitz Report
Team # _____**

This report is used to collect volunteer time in support of the DNR grants administered by Squash Lake to aid in the control of Eurasian Water Milfoil.

Instructions: An EWM Littoral Zone Blitz is intended to monitor most of the 7.1 miles of littoral zone of Squash Lake. A map on the reverse side of this form shows the most current EWM locations identified by Onterra, surveyed in June 2017. Only note on this form: 1) NEW milfoil locations and 2) existing locations as shown on the map but only where EWM is about to break, or has broken, the surface of the water. For NEW EWM locations, please mark the area with a buoy, and record the GPS location (and/or grid location). For existing EWM locations where the plant is about to break or has broken the surface, note the Onterra priority location number from the map, and record its grid location, on this form.

Date: _____ # Volunteers: _____ Hours on the Water: _____

Was a private boat used? _____ If so, owner's name: _____

Volunteer Names - Signature, printed name, email address, phone number
